O R D E R

On April 13, 1994, Central Illinois Public Service Company ("Central Illinois") filed a motion for full intervention in this proceeding. The motion states that Central Illinois has offered to sell short term power to Kentucky Utilities Company ("KU") but that the offer has not been accepted due to price considerations. The motion further states that, "Central Illinois intends only to monitor this matter and does not intend to offer testimony at the hearing."

Based on the motion and KU's response, the Commission hereby finds that the interest sought to be protected by Central Illinois is too remote to justify intervention. The Commission has no jurisdiction to require KU to purchase power from any particular supplier, our jurisdiction being limited to allowing rate recovery of only reasonable and prudent purchase power costs. All pleadings and orders entered by the Commission are public records and, thus, available to Central Illinois. The hearing scheduled on April 19,

1994 is also open to the public and Central Illinois may attend if it so chooses.

IT IS THEREFORE ORDERED that Central Illinois's motion for full intervention be and it hereby is denied.

Done at Frankfort, Kentucky, this 15th day of April, 1994.
